

Real Men WEAR SUNSCREEN

“Driving a snow plow isn’t for wimps. My crew and I help keep Colorado’s roads and drivers safe. My crew may be tough but I encourage them (men and women) to wear sunscreen:

- on and off the job
- in summer and winter
- 365 days a year

The sun’s rays can be harsh even when it’s cold outside. And fresh snow can reflect 85% of the sun’s UV right back at you.”

-Eduardo
